### PITMAN'S CARROLLTON OFFICE HAS MOVED

---

**Totowa, NJ – October 6, 2009** – The Pitman Company is excited to announce that the Carrollton, Texas facility has relocated to a new and larger 22,000 square foot facility. The move to a larger facility will improve services to all our customers and vendors.

According to Richard Benner, Pitman's Operations Manager, some of the new and exciting features that our location offers are the following:

- With the increased warehouse square footage, Pitman now has more room to stock a wide variety of product inventory making it easier for same day delivery and improved customer service.
- The new facility now has the capability to handle hazardous material with the Hazmat Containment Room, which is in compliance with all EPA guidelines.
- A modern Conference Room and Demo Center giving us the ability to hold open house demonstration events showing new and innovating printers that our vendors offer.
- We will also be adding Board cutting capabilities and will be able to cut any board (Gatorfoam, Fome-Cor, etc.) to any size configuration a customer needs, same day.

The new address for the Pitman Dallas location is 2601 Resource Drive, Suite 300, Plano, Texas 75074. For further information about our new facility or to see a list of all Pitman locations, please browse our newly redesigned website – [www.pitman.com](http://www.pitman.com) or call 888-274-8626.

#### **About Pitman**

With more than a century of service as the leading provider of imaging solutions from design to print, the Pitman Company provides a full spectrum of products and system solutions, services and support for both the digital and traditional prepress and pressroom manufacturing processes. Pitman also offers tailored product solutions for the specific requirement of printing market segments to include commercial printing, packaging production, newspaper publishing, wide/grand format graphics, and CAD technical design. Headquartered in Totowa, New Jersey, the Pitman Company has branch locations with modern distribution and logistics centers across the United States.
